House System in Eklavya Model Residential Schools

A House consists of a group of children effectively led by a responsible teacher (House Master) who acts as a parent, guide, philosopher and friend for every member of the House. A House inherently provides a family atmosphere in making the child physically fit, socially adjusted, emotionally balanced, and morally upright. In the modern educational concept, House System is regarded as an integral part of the residential school education. House System shall, therefore, be established in each **Eklavya Model Residential School** to develop qualities of leadership and a spirit of healthy competition for all curricular and co-curricular activities among the children. This will also help to develop life skills among all inmates.

In EMRS, for every 30 students, one HM will be there. In total, services of 16 HMs will be involved in a school with 480 students with honorarium @ Rs.1,200/- per month to every HM for looking after the students. (The procedure to charge this allowance with salary will be issued separately)
