

File No.: NESTS/ADMIN/MiscProg/379/2022-22

Dated: 10.02.2026

The Nodal Officer,
State EMRS Society,
All States/UTs

Subject: Organization of bi-annual comprehensive eye check-up camps for EMRS students – reg.

Sir/Madam,

EMRSs are fully residential institutions, and ensuring the health and well-being of students in a residential setting is a primary responsibility of the school administration.

2. In order to ensure early detection and timely management of vision-related problems among students, it has been decided that regular eye check-up of all students studying in EMRSs shall be conducted. It has been observed that one major cause of learning challenge is poor eyesight in case of some students.

3. Accordingly, the State EMRS Societies are requested to direct all EMRSs under their jurisdiction to organize free comprehensive eye check-up camps in coordination with the District Collectorate, Community Health Centres (CHCs), District Government Hospitals, or reputed voluntary medical institutions/NGOs.

4. The Principals may be directed to coordinate with the above institutions for organizing the camps. Services of part-time doctors engaged by the schools may also be utilized, wherever available.

5. The Principals shall ensure that eye check-up camps are organized bi-annually in every academic year.

6. The Principals are directed to provide spectacles to students based on eye test, if needed, and share the data of students requiring spectacles for further information of the competent authority.

7. The Principals shall compile details of eye check-ups conducted and share data of students requiring spectacles with NESTS through the prescribed Google Form for information of the competent authority and further intervention.
